Community Support Organizations' Response to COVID-19

As organizations that support local nonprofits, we are committed to the Greater Waco community and the individuals and families who live here. We know our nonprofits are working overtime to meet the many needs associated with COVID-19, and we thank you for your service.

We are working in partnership with and support of our community leaders to understand the needs, resources and best ways to respond, and will keep nonprofits updated in a timely manner.

We are partnering with Act Locally Waco to share important information as it becomes available.

We encourage all nonprofit partners to check www.actlocallywaco.org/cvresources for updates and community information.

We are Waco-McLennan County, and we will get through this together.
